

Praveen A

Senior Full Stack Software
Developer

PROFILE SUMMARY

Dynamic Full Stack Software Developer with over 3 years of experience in creating scalable single-page applications using Angular 15+, TypeScript, and RxJS. At Centizen, I significantly improved the user experience on the ZENBASKET e-commerce platform by optimizing page load times by 70% and reducing bugs by 30%. My expertise encompasses developing RESTful APIs and GraphQL endpoints with Node.js and PostgreSQL, and maintaining over 85% unit test coverage leveraging Jest, Jasmine, and Karma. I excel in collaborative Agile environments, having delivered 12+ features per sprint while enhancing code maintainability through reusable components and multilingual support. Passionate about leveraging modern web development technologies, I am committed to driving innovation and efficiency.

EDUCATION

2023	B.Tech / B.E. P.S.R.Engineering College, Sivakasi
2019	XIIth English
2017	Xth English

WORK EXPERIENCE

Feb 2023 - Present	Senior Full Stack Software Developer Centizen - Contributed to the ZENBASKET e-commerce platform as a Full Stack Software Developer, enhancing user experience and functionality. - Developed scalable single-page applications utilizing Angular 15+, TypeScript, and RxJS. - Designed and maintained RESTful APIs and GraphQL endpoints utilizing Node.js and PostgreSQL with Sequelize ORM. - Architected over 10 reusable Angular components and modules, leading to a 25% reduction in cross-team development time. - Optimized page load performance from 5 seconds to 1.5 seconds through effective lazy loading, modularization, and bundle splitting techniques. - Implemented multilingual (i18n) support across live client storefronts, accommodating diverse user demographics. - Built a real-time web push notification system leveraging Service Workers and PWA standards for improved user engagement. - Integrated Razorpay and Stripe payment gateways with multi-currency capabilities, enhancing checkout conversion rates by 18%. - Achieved over 85% unit test coverage through rigorous testing

practices using Jest, Jasmine, and Karma.

- Collaborated in an Agile/Scrum environment, successfully delivering 12+ features per sprint to meet dynamic project requirements.

Projects

16 Months

Zenbasket Marketing Portal

- Collaborated with a 4-member Angular development team to create the Zenbasket Marketing Portal from the ground up, establishing a scalable and maintainable frontend architecture.
- Designed and implemented a reusable component library, significantly accelerating feature development and enhancing consistency across the application.
- Integrated Stripe and Razorpay payment gateways with multi-currency support, facilitating seamless global transactions and boosting checkout conversion rates.
- Enhanced application performance by refactoring legacy Angular modules, implementing lazy loading, and optimizing bundle distribution, leading to faster UI rendering and reduced initial load times.

40 Months

Zenbasket - E-Commerce Platform

- Led the modernization of the Zenbasket e-commerce platform by migrating legacy JavaScript code to TypeScript, enhancing code quality and maintainability with strict type enforcement.
- Designed and developed reusable Angular components, services, and shared modules, accelerating feature delivery across multiple teams.
- Improved application performance via modular architecture, lazy loading, and bundle optimization, reducing page load times from 5 seconds to 1.5 seconds.
- Implemented multilingual (i18n) support across multiple client storefronts, enabling seamless real-time language switching and enhancing accessibility for international users.
- Developed a real-time push notification system using Service Workers and PWA technologies to deliver instant order updates, improving customer engagement.
- Integrated the Constant Contact API to automate large-scale marketing campaigns, significantly reducing manual operational efforts.

9 Months

Getzenbasket

- Developed and maintained the static landing site "GetZenbasket" for the Zenbasket E-commerce Platform as a Front-end Engineer.
- Designed over 40 pages, ensuring a visually appealing and user-friendly experience on the website.
- Transitioned the site's technology from plain HTML, CSS, and JavaScript to Astro, optimizing for improved SEO performance.
- Collaborated with the team to enhance site functionality and performance, contributing to a more efficient user engagement.

COURSES & CERTIFICATIONS

- JavaScript Course With Certification: Unlocking the Power of JavaScript
- AI Tools Workshop
- Node JS Certification Course - Master the Fundamentals
