Summary

Full Stack Software Developer with 3+ years of experience building scalable SPAs using Angular 15+, TypeScript, RxJS, and Angular Material. Proven track record of reducing page load times by 70%, cutting production bugs by 30%, and delivering 12+ features per sprint in Agile teams. Experienced in Node.js, PostgreSQL, REST APIs, GraphQL integration, and 85%+ unit test coverage with Jest/Jasmine/Karma.

Skills

Frontend: Angular 15+, TypeScript, RxJS, Angular Material, HTML5, CSS3, JavaScript (ES6+), Responsive Design, PWA, i18n

Backend: Node.js, Express.js, REST APIs, GraphQL

Database: PostgreSQL, Sequelize, SQL

Testing: Jest, Jasmine, Karma, Cypress, Unit Testing, Integration Testing

Tools: Git, GitLab, SourceTree, VS Code, CI/CD (basic)

Methodologies: Agile, Scrum, Performance Optimization, Code Refactoring

Experience

Software Engineer – Centizen, Inc.

Jan 2025 – Present

ZENBASKET E-commerce Platform — Angular 15+, TypeScript, RxJS, Node.js, PostgreSQL, Sequelize

- Migrated large-scale legacy codebase to TypeScript with strict type checks, reducing production bugs by 30% and improving overall code robustness.
- Designed and deployed 10+ reusable Angular components, services, and modules adopted across multiple teams, cutting cross-team development time by 25%.
- Optimised page load pipeline via modularization, lazy loading, and bundle optimization, slashing load times from 5s to 1.5s — a 70% performance improvement.
- Delivered multilingual (i18n) support across 4 live client storefronts, enabling real-time dynamic language switching and improving international accessibility.
- Built a real-time web push notification system using Service Workers and PWA standards, driving instant order updates and boosting customer engagement.

Software Engineer – Centizen, Inc.

Feb 2023 – Present

ZENBASKET Marketing Portal — Angular 15+, TypeScript, RxJS, REST APIs

- Launched a Marketing Portal from scratch as part of a 4-member Angular team; architected reusable component library reducing feature development time by 25% within the first 3 months.
- Integrated Razorpay and Stripe payment gateways with multi-currency support, improving checkout conversion rate by 18% across international storefronts.
- Refactored legacy Angular modules applying lazy loading and bundle splitting, achieving 20% improvement in UI rendering speed and reducing initial bundle size.
- Integrated Constant Contact API to automate bulk promotional campaigns, reducing manual marketing outreach by 40%.
- Achieved 85%+ test coverage using Jest, Jasmine, and Karma; proactively authored integration tests that reduced post-release incidents significantly.

Projects

Angular Chat System — Designed a lightweight real-time messaging feature using RxJS observables and Service Workers with Web Push, eliminating the need for WebSockets and reducing infrastructure overhead; delivered seamless instant messaging at scale.

E-commerce Core Modules — Architected and delivered key Angular modules for Checkout, Purchase Management, Customer Management, and Plan Management using REST APIs and GraphQL, ensuring secure data flow and smooth end-to-end customer workflows.

Education

B.E. Computer Science and Engineering

2019 – 2023

P.S.R Engineering College, Sivakasi

CGPA: 8.6 / 10.0

Awards & Certifications

- JavaScript Certification — Scaler
- Node.js Fundamentals Certification — Scaler
- AI Tools Workshop — Be 10x
