PROFESSIONAL SUMMARY

Dynamic Full Stack Software Developer with over 3 years of experience in creating scalable single-page applications using Angular 15+, TypeScript and RxJS. At Centizen, I significantly improved the user experience on the ZENBASKET e-commerce platform by optimizing page load times by 70% and reducing bugs by 30%. My expertise encompasses developing RESTful APIs and GraphQL endpoints with Node.js and PostgreSQL and maintaining over 85% unit test coverage leveraging Jest, Jasmine and Karma. I excel in collaborative Agile environments, having delivered 12+ features per sprint while enhancing code maintainability through reusable components and multilingual support.

SKILLS

Frontend: Angular, Angular CLI, TypeScript, JavaScript, HTML, CSS, SCSS, Sass, Responsive Web Design, Material Design, Angular Material, Material Ui, RxJS, NgRx, Cypress, Jest, Jasmine, Karma, PWA, SPA

Backend: Node.js, Express, RESTful API, GraphQL

Database: PostgreSQL

Tools & Version Control: Git, Gitlab

CERTIFICATIONS

- JavaScript Course With Certification: Unlocking the Power of JavaScript
- AI Tools Workshop
- Node JS Certification Course - Master the Fundamentals

WORK EXPERIENCE

Senior Full Stack Software Developer - Centizen (Feb 2023 - Present)

- **Achieved 70% page load time reduction (5 seconds → 1.5 seconds)** through strategic implementation of lazy loading, code modularization, and bundle splitting on the ZENBASKET e-commerce platform
- **Reduced production bugs by 30%** by establishing and maintaining 85% unit test coverage using Jest, Jasmine, and Karma with rigorous testing practices
- **Accelerated cross-team development by 25%** by architecting and delivering 10+ reusable Angular components and modules with standardized patterns and documentation
- **Improved checkout conversion by 18%** through seamless integration of Razorpay and Stripe payment gateways with multi-currency capabilities
- **Achieved 80% AWS S3 cost reduction** by successfully migrating cloud storage to Cloudflare R2
- **Delivered 12+ features per sprint** consistently in Agile/Scrum environment while maintaining high code quality standards
- **Expanded global reach** by implementing multilingual (i18n) support across live client storefronts, accommodating diverse international user demographics
- **Increased user engagement** through development of a real-time web push notification system leveraging Service Workers and PWA standards
- **Built scalable full-stack solutions** using Angular 15+, TypeScript, RxJS, Node.js, and PostgreSQL with Sequelize ORM

PROJECTS

Zenbasket Marketing Portal (16 Months)

- **Enabled global transactions** by integrating Stripe and Razorpay payment gateways with multi-currency support, enabling seamless international payments
- **Accelerated feature delivery** by designing and implementing a reusable component library that significantly enhanced consistency across the platform
- **Established scalable architecture** as part of a 4-member Angular development team, creating maintainable foundations for rapid growth
- **Reduced initial load times** through refactoring of legacy Angular modules, implementation of lazy loading, and bundle optimization
- **Improved application performance** by achieving faster UI rendering through architectural optimizations

Zenbasket - E-Commerce Platform (40 Months)

- **Reduced page load times by 70%** from 5 seconds to 1.5 seconds through modular architecture, lazy loading, and bundle optimization
- **Accelerated feature delivery across teams** by designing and developing reusable Angular components, services, and shared modules
- **Enhanced code quality** by leading the modernization of the platform through migration of legacy JavaScript code to TypeScript with strict type enforcement
- **Expanded global reach** by implementing multilingual (i18n) support across multiple client storefronts for international users
- **Improved user engagement** through development of a real-time push notification system using Service Workers and PWA technologies
- **Automated marketing operations** by integrating the Constant Contact API to enable large-scale marketing campaigns

GetZenbasket (9 Months)

- **Improved SEO performance** by transitioning the site's technology from plain HTML, CSS, and JavaScript to Astro framework
- **Enhanced user engagement** through design of 40+ pages with visually appealing and user-friendly experience
- **Contributed to efficient user acquisition strategy** by collaborating with the team to enhance site functionality and performance

EDUCATION

B.Tech / B.E. in Computer Science and Engineering (CSE) - P.S.R. Engineering College, Sivakasi (2023)

Grade: 8.6/10

12th Grade - Tamil Nadu (2019) | Marks: 79.8%

10th Grade - Tamil Nadu (2017) | Marks: 98.0%

ADDITIONAL INFORMATION

Languages: English, Tamil
